ClickUp

What I do for fun

C++

Unreal Engine

GSAP

Three.js

Framer Motion

I speak

Italian

Native speaker

English

Fluent

Spanish

Basic

Most notable work experience

Software Engineer

January 2022 - July 2023

AuxoDAO

- **Led the development of the front-end for the AuxoDAO platform**, a defi protocol, enabling users to manage their assets and interact with the platform's smart contracts.
- **Collaborated closely with the design team** to craft an aesthetically pleasing interface, leveraging engaging animations and intuitive design elements. This collaborative effort aimed to elevate user engagement and foster a sense of ease and familiarity within the platform environment.
- **Integrating the platform with our smart contracts**, facilitating users' interaction with the platform's functionalities, such as staking, unstaking, swapping tokens.

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process.

- **Integrated Synpress E2E testing platform** to ensure the platform's reliability and robustness and crafted automated tests to validate the platform's functionalities.
- **Successfully orchestrated the migration of more than \$10 million within the migration platform**, executing the transfer through the dApp with precision, efficiency, and without encountering any issues.

Technologies: React.js, Redux Toolkit, Next.js, TypeScript, Nx, Tailwind CSS, Framer Motion, Radix UI, TanStack Query, GraphQL

Front-end Technical Lead

September 2020 - December 2021

Syscoplan Reply (former Portaltech Reply)

Led the front-end development team, in charge of the development and improvement of the **SAP Commerce Cloud** platform for the **DeLonghi** group which consisted of four distinct online stores operating across 40+ countries: **DeLonghi, Kenwood World, Braun Household, Nutribullet**.

My responsibilities included overseeing and actively contributing the implementation of user interface designs, optimizing website performance, and ensuring integration with SAP backend.

Technologies: React.js, Sass, SAP

Front-end developer

May 2019 - April 2020

YOOX NET-A-PORTER

Developed and maintained the front-end for Missoni & Stone Island stores managed by the YOOX NET-A-PORTER group. On **Stone Island** our team invested one year in revamping the entire website, ensuring full compliance with accessibility standards, specifically aligning with US legislation (ADA).

Technologies: C#, SCSS, React.js, Gatsby

Front-end developer

August 2018 - April 2019

Nexi

- **Developed new features the front-end for the Nexi user dashboard**, an Italian fintech company which provides payment solutions for businesses and individuals.
- **Collaborated with the design team** to implement new features and improve the user experience of the dashboard.
- **Supported the front-end architecture team** aiding in the smooth integration of Material UI & Storybook in the development workflow.

Technologies: React.js, Redux, Redux Saga, SCSS, MaterialUI, Storybook
